

Engage Students with Hands-on Activities

As your trusted partner, we offer two kit options for each middle school title, so you can choose what is best for your classroom needs. Both kits are perfectly aligned with the book content to help you meet the hands-on activity needs for your STEM standards.

Core Kit*

BEST OPTION

- Includes most materials needed to complete the **Inquiry** and **Mini labs**.
- This kit supplies you more materials for the leading labs within the book.
- Recommended option if you prefer to focus on the “must do” labs within the book and prefer to have more materials provided within the kit.

Essentials Kit*

- Includes the science-specific or harder to find materials needed for **all the labs**.
- Includes science-specific items not ordinarily found in the classroom.
- Recommended option if you prefer to teach all the labs, or a variety of labs within the book.

Additional Kit Needs

Consumable items can be easily replenished through *Ward's Science*.

*Not included in Core & Essentials kits: Balances, microscopes, glassware, hot plates, & grocery store items.

Core & Essential Kits created in collaboration with *Ward's Science*
