

Table of Contents

UNIT 1

Investigate Matter

Module: Matter

MODULE PLANNING RESOURCES

Three-Dimensional Learning	2A
Performance Expectations	2B
Disciplinary Core Idea Progressions	2C
Three Dimensions at a Glance	2D
Module Planner	2E
Inquiry Activity Planner	2G
Inspire All Students	2I
Encounter the Phenomenon	2
STEM Module Project Launch	4

Lesson 1: Identifying the Properties of Matter

LESSON PLANNING RESOURCES

Building to the Performance Expectations	6A
Lesson at a Glance	6C
Encounter the Phenomenon	6
Inquiry Activity: Hands On Test Matter's Properties	8

Lesson 2: Mixtures and Solutions

LESSON PLANNING RESOURCES

Building to the Performance Expectations	20A
Lesson at a Glance	20C
Encounter the Phenomenon	20
Inquiry Activity: Hands On Solubility Solutions	22
Inquiry Activity: Simulation Mixtures in Action	26
Inquiry Activity: Hands On Separate Mixtures	28

Lesson 3: Physical and Chemical Changes

LESSON PLANNING RESOURCES

Building to the Performance Expectations	34A
Lesson at a Glance	34C
Encounter the Phenomenon	34
Inquiry Activity: Hands On Conservation of Mass	36

Lesson 4: Solids, Liquids, and Gases

LESSON PLANNING RESOURCES

Building to the Performance Expectations	50A
Lesson at a Glance	50C
Encounter the Phenomenon	50
Inquiry Activity: Hands On Observe Matter	52
Inquiry Activity: Simulation Particles in Matter	57
STEM Module Project	65
STEM Module Project Planning	65
Engineering Challenge Design the Perfect Pancake	68
Module Wrap-Up	71

TEACHER RESOURCES

Study Guide Foldables®	EM8
Visual Kinesthetic Vocabulary® (VKV®)	EM10
Notebook Foldables®	EM12
Graphic Organizers	EM14

Teacher Notes

Table of Contents

UNIT 2

Ecosystems

Module: Matter in Ecosystems

MODULE PLANNING RESOURCES

Three-Dimensional Learning	2A
Performance Expectations	2B
Disciplinary Core Idea Progressions	2C
Three Dimensions at a Glance	2D
Module Planner	2E
Inquiry Activity Planner	2G
Inspire All Students	2I
Encounter the Phenomenon	2
STEM Module Project Launch	4

Lesson 1: Plant Survival

LESSON PLANNING RESOURCES

Building to the Performance Expectations	6A
Lesson at a Glance	6C
Encounter the Phenomenon	6
Inquiry Activity: Simulation Virtual Plant	8
Inquiry Activity: Hands On Plant Investigation	12
Inquiry Activity: Research Soil-less Gardens	14

Lesson 2: Interactions of Living Things

LESSON PLANNING RESOURCES

Building to the Performance Expectations	20A
Lesson at a Glance	20C
Encounter the Phenomenon	20
Inquiry Activity: Hands On Foxes and Rabbits	22

Lesson 3: Role of Decomposers

LESSON PLANNING RESOURCES

Building to the Performance Expectations	38A
Lesson at a Glance	38C
Encounter the Phenomenon	38
Inquiry Activity: Hands On Yeast and Bananas	40
Inquiry Activity: Hands On Soil Decomposers	44
STEM Module Project	51
STEM Module Project Planning	51
Science Challenge Design a Compost Heap	54
Module Wrap-Up	57

Module: Energy in Ecosystems

MODULE PLANNING RESOURCES

Three-Dimensional Learning	58A
Performance Expectations	58B
Disciplinary Core Idea Progressions	58C
Three Dimensions at a Glance	58D
Module Planner	58E
Inquiry Activity Planner	58G
Inspire All Students	58J
Encounter the Phenomenon	58
STEM Module Project Launch	60

Lesson 1: Earth's Major Systems

LESSON PLANNING RESOURCES

Building to the Performance Expectations	62A
Lesson at a Glance	62C
Encounter the Phenomenon	62
Inquiry Activity: Data Analysis Types of Matter on Earth	64
Inquiry Activity: Research Earth's Systems Within Ecosystems	68

Table of Contents

Lesson 2: Cycles of Matter in Ecosystems

LESSON PLANNING RESOURCES

Building to the Performance Expectations	76A
Lesson at a Glance	76C

Encounter the Phenomenon	76
--------------------------------	----

Inquiry Activity: Hands On Cycling of Matter	78
--	----

Lesson 3: Energy Transfer in Ecosystems

LESSON PLANNING RESOURCES

Building to the Performance Expectations	92A
Lesson at a Glance	92C

Encounter the Phenomenon	92
--------------------------------	----

Inquiry Activity: Hands On Ecosystem Tag	94
--	----

Inquiry Activity: Research Model a Food Chain and Food Web	100
--	-----

STEM Module Project	107
---------------------------	-----

STEM Module Project Planning	107
------------------------------------	-----

Science Challenge Design an Eco-Column	107
--	-----

Module Wrap-Up	110
----------------------	-----

TEACHER RESOURCES

Study Guide Foldables®	EM8
------------------------------	-----

Visual Kinesthetic Vocabulary® (VKV®)	EM10
---	------

Notebook Foldables®	EM12
---------------------------	------

Graphic Organizers	EM14
--------------------------	------

Teacher Notes

Table of Contents

UNIT 3

Earth's Interactive Systems

Module: Earth's Water System

 MODULE PLANNING RESOURCES	
Three-Dimensional Learning	2A
Performance Expectations	2B
Disciplinary Core Idea Progressions	2C
Three Dimensions at a Glance	2D
Module Planner	2E
Inquiry Activity Planner	2G
Inspire All Students	2I
Encounter the Phenomenon	2
STEM Module Project Launch	4

Lesson 1: Water Distribution on Earth

LESSON PLANNING RESOURCES	
Building to the Performance Expectations	6A
Lesson at a Glance	6C
Encounter the Phenomenon	6
Inquiry Activity: Data Analysis Usable Water	8
Inquiry Activity: Data Analysis Where Water is Found	14

Lesson 2: Human Impact on Water Resources

LESSON PLANNING RESOURCES	
Building to the Performance Expectations	22A
Lesson at a Glance	22C
Encounter the Phenomenon	22
Inquiry Activity: Hands On Test the Waters	24
Inquiry Activity: Hands On Effects of Acid Rain	28
Inquiry Activity: Research Human Impact	31

Lesson 3: Effects of the Hydrosphere

LESSON PLANNING RESOURCES

Building to the Performance Expectations	38A
Lesson at a Glance	38C
Encounter the Phenomenon	38
Inquiry Activity: Hands On Wave Erosion	40
Inquiry Activity: Hands On River Erosion	44
STEM Module Project	53
STEM Module Project Planning	53
Engineering Challenge Design a Rainwater Collection System	56
Module Wrap-Up	59

Module: Earth's Other Systems

MODULE PLANNING RESOURCES

Three-Dimensional Learning	60A
Performance Expectations	60B
Disciplinary Core Idea Progressions	60C
Three Dimensions at a Glance	60D
Module Planner	60E
Inquiry Activity Planner	60G
Inspire All Students	60I
Encounter the Phenomenon	60
STEM Module Project Launch	62

Lesson 1: Effects of the Geosphere

LESSON PLANNING RESOURCES

Building to the Performance Expectations	64A
Lesson at a Glance	64C
Encounter the Phenomenon	64
Inquiry Activity: Hands On Predict the Flow of Water	66
Inquiry Activity: Hands On Effects of Soil on Water pH	76

Table of Contents

Lesson 2: Effects of the Atmosphere

LESSON PLANNING RESOURCES

Building to the Performance Expectations	84A
Lesson at a Glance	84C

Encounter the Phenomenon	84
--------------------------------	----

Inquiry Activity: Hands On Warm and Cold Air Masses	86
Inquiry Activity: Data Analysis Chance of Extreme Weather	94
Inquiry Activity: Data Analysis Elevations	97

Lesson 3: Effects of the Biosphere

LESSON PLANNING RESOURCES

Building to the Performance Expectations	102A
Lesson at a Glance	102C

Encounter the Phenomenon	102
--------------------------------	-----

Inquiry Activity: Simulation Overfishing	104
Inquiry Activity: Data Analysis Endangered and Extinct	108
Inquiry Activity: Research Protecting Against Forest Fires	110

STEM Module Project	115
---------------------------	-----

STEM Module Project Planning	115
------------------------------------	-----

Science Challenge Design a Desert Oasis	117
---	-----

Module Wrap-Up	119
----------------------	-----

TEACHER RESOURCES

Study Guide Foldables®	EM8
Visual Kinesthetic Vocabulary® (VKV®)	EM10
Notebook Foldables®	EM12
Graphic Organizers	EM13

Teacher Notes

Table of Contents

UNIT 4

Earth and Space Patterns

Module: Earth's Patterns and Movement

 MODULE PLANNING RESOURCES	
Three-Dimensional Learning	2A
Performance Expectations	2B
Disciplinary Core Idea Progressions	2C
Three Dimensions at a Glance	2D
Module Planner	2E
Inquiry Activity Planner	2G
Inspire All Students	2I
Encounter the Phenomenon	2
STEM Module Project Launch	4

Lesson 1: The Role of Gravity

LESSON PLANNING RESOURCES	
Building to the Performance Expectations	6A
Lesson at a Glance	6C
Encounter the Phenomenon	6
Inquiry Activity: Hands On Crater Model	9
Inquiry Activity: Hands On Falling Water	16

Lesson 2: Earth's Motion

LESSON PLANNING RESOURCES	
Building to the Performance Expectations	24A
Lesson at a Glance	24D
Encounter the Phenomenon	24
Inquiry Activity: Hands On Shadow Measurements	26
Inquiry Activity: Simulation Earth's Movements	30
Inquiry Activity: Data Analysis Three Cities	36

STEM Module Project	43
STEM Module Project Planning	43
Science Challenge Design a Planetarium Model	46
Module Wrap-Up	47

Module: Earth and Space

MODULE PLANNING RESOURCES

Three-Dimensional Learning	48A
Performance Expectations	48B
Disciplinary Core Idea Progressions	48C
Three Dimensions at a Glance	48D
Module Planner	48E
Inquiry Activity Planner	48G
Inspire All Students	48I
Encounter the Phenomenon	48
STEM Module Project Launch	50

Lesson 1: Earth's Place in Space

LESSON PLANNING RESOURCES

Building to the Performance Expectations	52A
Lesson at a Glance	52C
Encounter the Phenomenon	52
Inquiry Activity: Hands On Model of the Sun, Earth, and Stars	54
Inquiry Activity: Hands On Model the Solar System	61

Table of Contents

Lesson 2: Stars and Their Patterns

LESSON PLANNING RESOURCES

Building to the Performance Expectations	68A
Lesson at a Glance	68D
Encounter the Phenomenon	68
Inquiry Activity: Hands On Star Brightness	70
Inquiry Activity: Simulation The Night Sky	78
STEM Module Project	85
STEM Module Project Planning	85
Science Challenge Model a Constellation	87
Module Wrap-Up	89

TEACHER RESOURCES

Study Guide Foldables®	EM8
Visual Kinesthetic Vocabulary® (VKV®)	EM10
Notebook Foldables®	EM12
Graphic Organizers	EM13

Teacher Notes
