

Supporting Unique Paths to Growth

We believe everyone brings something different to the table and that no two students, classrooms, or schools are the same. That's why we've engineered personalized learning solutions that cater to a wide range of learning styles, interests, and abilities.

World-Class Content, World-Wide Impact

As industry leaders, we partner with millions of educators, students, and professionals around the world to facilitate transformative learning experiences. Using best-in-class content powered by adaptive, cutting-edge technology, our programs help educators and learners discover new paths to success.

Resources and Tools to Meet Your Needs

Seamless Integration

Integrating new programs into your district's digital ecosystem should solve problems, not create them. We offer a suite of comprehensive services designed to promote ease of use and ensure end user access.

- Assignment Sync and Grade Passback in accordance with the IMS Global® LTI Advantage 1.3 standard
- Google Assignment Sync
- OneRoster® and Clever Rostering
- Single Sign-On (SSO) using interoperability standards: LTI, SAML, and Clever
- IMS Global Thin Common Cartridge®

Custom Solutions

Create® & Create EasyOrder: Build educational resources that meet your school or district's specific needs with Create—a self-service website that allows you to construct custom course materials from our comprehensive, cross-disciplinary content.

- **Learn more about Create:** mhed.us/Create
- **Print materials on demand with Create EasyOrder:** mhed.us/EasyOrder

School Storefronts: Next time you need to place an order, skip calls or emails to your sales rep. Add to your McGraw Hill programs online by building a custom webstore for your school or district.

Professional Learning

- **Online Courses:** Embedded within the product platform, these include quick start, assessment, and other focused courses that help teachers implement the curriculum and use the digital resources and technology in more effective ways.
- **Author and Advisor Pedagogical Video Series:** Our authors and advisors highlight specific pedagogical opportunities for teachers and administrators to effectively apply the research-based instructional models on which our programs were developed.
- **On-Demand Initial Trainings:** These are designed to help teachers and/or districts utilize resources that support student achievement.
- **Live (Virtual and/or In Person) Initial Training Sessions:** Implemented based on a plan developed with the district, these sessions prepare teachers to use curriculum resources.
- **Classroom Video Libraries:** These videos demonstrate how real teachers use our programs and pedagogy in the classroom, giving educators, coaches, and administrators the opportunity to see the programs in action.
- **Pedagogy in Product Sessions:** Additional professional learning sessions for each product are available for purchase to support the ongoing development of teachers, administrators, and support staff on pedagogical skills and practices that support the effective use of the resources.
- **District Facilitated Workshops:** We designed these sessions to be delivered by district personnel. They include a facilitator's guide and video clips for use in a professional learning community or district professional learning session.

Revamping Learning in a Connected World

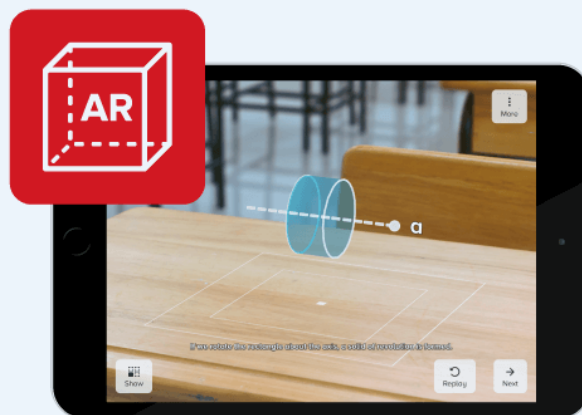

Over the last decade, we have accelerated our digital transformation with the goal of enhancing the learning experience for all. Leveraging shared digital tools, capabilities, and resources across the organization, we continue to develop products that are easier to use, more engaging, and that deliver better outcomes for students and educators across the globe.

Create a Personalized Learning Experience for Your Students

New AI in *ALEKS*, our adaptive math and chemistry program, leverages deep learning neural networks that **reduce time spent on assessments by over 20%**.

Adaptive questioning quickly and accurately determines exactly what topics a student knows and doesn't know in a course. *ALEKS* then instructs each student on the topics they are most ready to learn.

ALEKS® | **5.8M** unique users

Expand Your Classroom's Possibilities

We have partnered with Verizon to create an augmented reality app that combines proven content with powerful technology to engage your students in unique and impactful ways.

Reflecting the Diverse World Around Us

Partners in Advancing Equity

We share in the collective responsibility to advance educational equity by integrating a systematic, multitiered approach to curriculum design, resulting in culturally responsive, equitable programs that reflect—and are accessible to—all the diverse customers we serve.

We also offer a two-part professional learning series centered on equity: Culturally Responsive Professional Learning Series. Part one focuses on creating a culturally responsive environment aligned to Dr. Gholdy Muhammad's four components of CRI: Identity, Skills, Intellect, and Criticality. Part two guides educators in applying the CRI framework within their classroom.

Equity Advisory Board

The PreK–12 Equity Advisory Board supports our inclusive mission by bringing together nationally recognized experts and education practitioners versed in addressing equity, diversity, accessibility, and social justice issues in the education space and within curricular programs and materials.

Make Connections, Grow Together

**McGraw Hill
Communities**

Educators' Community

We value the ideas, insights, and opinions of educators. That's why we're inviting all current PreK–12 educators in the United States to join one of our educational communities. Get involved, get connected, and become a thought leader.

➤ **Find your community:**

The Art of Teaching

Join our growing community and share stories through blog posts, partnerships, and networking. Every educator and blogger in the Art of Teaching Project is dedicated to empowering other educators through sharing, encouragement, and advice as they face staggering challenges in their daily work.

➤ **Share your story:**
mhed.us/ArtOfTeaching

Kindness Certified Company

Today's world could use a little more kindness. We are proud to share that our long-standing partner, Kids for Peace, has named us the first official Kindness Certified company. Home of The Great Kindness Challenge, Kids for Peace are pioneers of kindness education. The very first nonprofit to introduce a structured classroom kindness program, they serve as a trusted source for educators worldwide.

Learning Happens Anywhere

As learning needs evolve, we are here to support you with the resources you need.
