

## A Global View of Environmental Science for AP Students

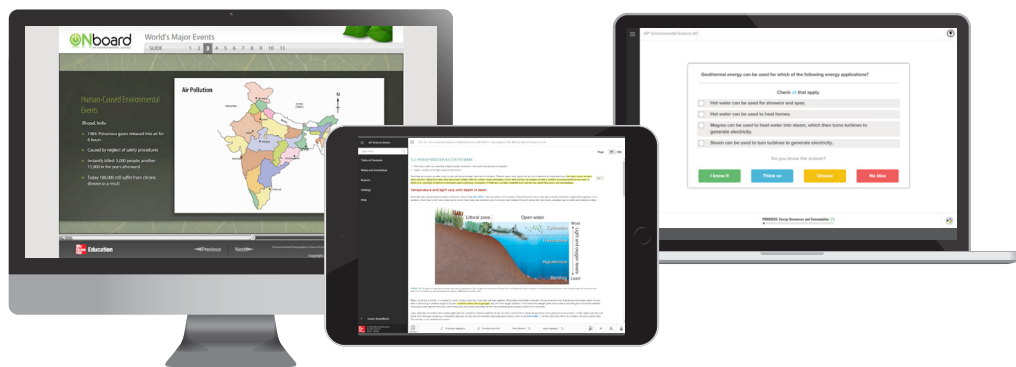

This new AP Edition of *Environmental Science: A Global Concern* presents a global view of environmental science in the context of the AP course and exam. By having students think critically, make clear connections, and apply their learning to real-world situations, the program emphasizes environmental responsibility and global awareness with a clear alignment to the College Board Curriculum Framework for AP Environmental Science.

### Features for AP Success include:

- AP Connections in the chapter openers that pinpoint the AP topics and key concepts covered in the chapter as well as the location of skills and practice to prepare for the exam.
- An AP-style chapter assessment with a vocabulary review, multiple choice questions, and data analysis and free-response questions.
- Math features to prepare students for the mathematical requirements of the AP exam.
- An AP Teacher's Manual that correlates each chapter to the APES Curriculum Framework and provides a pacing guide, useful activities, and answers to questions in the student edition.
