AP[®] Environmental Science

Environmental Science: A Study of Interrelationships 14th Edition, © 2016 Enger

A Concise and Conceptual Text for an AP or Elective Environmental Science course

Environmental Science: A Study of Interrelationships, a full-color introductory environmental science text, is known for being concise and conceptual. The approach and reading level cover the basic concepts without overloading students with too much detail. The authors reinforce the text's central theme of interrelationships by providing a historical perspective as well as information on economic and political realities and the role of different social experiences. Then, the authors integrate them with the crucial science to describe the natural world and how we affect it. This book is also suitable for an Elective Environmental Science course.

Other solutions for your classroom include:

- **The Field and Laboratory Activities for Environmental Science**, a lab manual that provides students with hands-on experiences that are relevant, easy to understand, and applicable to their lives—all presented in an interesting, informative format.
- **Connect[®]**, an integrated learning system that contains *SmartBook*, an adaptive eBook built on the *LearnSmart* engine.
- A downloadable eBook available through *ConnectED*.

TABLE OF CONTENTS

CHAPTER 1: Environmental Interrelationships	CHAPTER 7: Populations: Characteristics and Issues	CHAPTER 15: Water Management
CHAPTER 2: Environmental Ethics	CHAPTER 8: Energy and Civilization: Patterns of Consumption	CHAPTER 16: Air Quality Issues
CHAPTER 3: Risk, Economics, and Environmental Concerns	CHAPTER 9: Nonrenewable Energy Sources	CHAPTER 17: Climate Change: A Twenty-first Century Issue
CHAPTER 4: Interrelated Scientific Principles: Matter, Energy, and Environment	CHAPTER 10: Renewable Energy Sources	CHAPTER 18: Solid Waste Management and Disposal
CHAPTER 5: Interactions: Environments and Organisms	CHAPTER 11: Biodiversity Issues	CHAPTER 19: Environmental Regulations: Hazardous Substances and Wastes
CHAPTER 6: Kinds of Ecosystems and Communities	CHAPTER 12: Land-Use Planning	CHAPTER 20: Environmental Policy and Decision Making
	CHAPTER 13: Soil and Its Uses	
	CHAPTER 14: Agricultural Methods and Pest Management	

PERSONALIZED LEARNING FOR AP[®] ENVIRONMENTAL SCIENCE

SmartBook is the first and only adaptive eBook designed to change the way students read and learn. Built on the proven *LearnSmart* engine, *SmartBook* identifies what a student does or does not know and adapts in real time to help students learn faster and study more efficiently. Teachers can leverage *LearnSmart's* robust reporting tools, including metacognitive reports and most challenging learning objective reports, to identify areas in which students are struggling and provide targeted remediation to enhance learning.
