For Students

- The Interactive Student Edition, Workbooks, and Assessment (Quizzes and Tests) are **fully integrated** with audio, video, and activities.
- A **record-and-playback tool** helps students practice their pronunciation.
- **Instant feedback** helps students progress and encourages learning.
- Partner Voiceboard lets students locate partners online, **record a partner activity**, and submit their recordings to their teachers—all from within eStudio!

For Teachers

- Create rosters, set grading parameters, and post assignments for each class using the complete **Learner Management System**.
- View **students' results** for each activity.
- **Assess students' progress** with diagnostic tests and assign eStudio prescriptive material.
- **Disaggregate data** with reporting and analysis options.

When I study for exams, I **download grammar and vocabulary videos**. It's just like watching TV!

I use the Glencoe Web site to **study for the AP exam!** The challenge activities are great!

I use the **eFlashcards to practice vocabulary and verbs**. Studying for my test was a breeze!

I surprised my family with arroz con pollo! I found the recipe in the **Libro de recetas**.

I can **download my vocabulary to my MP3 player** and practice on my way to school!

Online PowerPoint® presentations allow me to **customize my lesson plans** each day. I even imported pictures from my trip to Chile last summer.
