

## CATEGORIZE FAMOUS PEOPLE

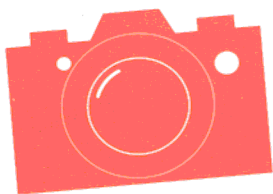

There are famous people in many walks of life. Categorize the people listed below by putting a check (✓) in the appropriate column or columns. Then look through newspapers, books, or magazines for the names of other famous people who interest you. Add the names to the list. Use the last column if you need to add one more category for any of your names.

[illegible]

## COLLECT A STORY

Most people have interesting stories about things that have happened to them. These stories are like snapshots taken of the person's life. We call these stories *vignettes*.

Interview a friend or classmate and get him or her to tell you one of these stories. Draw a "snapshot" of the main event in the story and write a caption below your drawing. Around your drawing, cluster important details and information from the story. Then, using the cluster to help you, write the story on another sheet of paper.
